IN THE CLAIMS:

Please amend claim 1 as follows:

LISTING OF CURRENT CLAIMS

1. (Currently Amended) A ceiling-attached multimedia player, comprising:

a base fastened to an inner side of a car top having a bottom edge pivotally coupled with a flipping display device and a housing dock <u>shaped</u> for holding a flipping multimedia player, the housing dock being an indentation formed in the <u>base</u>, the indentation being located so that the flipping display device covers the <u>flipping multimedia device when the flipping display device is in a stored position</u>; wherein:

the display device has a display screen on an inner side visible to rear seat passengers of a car when pivoted outwards from the stored position to a viewing position; and

the flipping multimedia player is a flattop multimedia player connecting to the display device for playing multimedia programs.

- 2. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a DVD player.
- 3. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a VCD player.
- 4. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a CD player.
- 5. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a blue light DVD player.

Application No. 10/805,269

- 6. (Original) The ceiling-attached multimedia player of claim 1 further having a video input end to allow an external video player to broadcast video/audio information.
- 7. (Original) The ceiling-attached multimedia player of claim 1 further having a video output end to connect an external video player to output video/audio information.
